

# ECLIPSE SERIES

SUPERIOR PERFORMANCE | LOWEST COST | EXTREME RELIABILITY | CONTROLS OPTIONS

The Vega Light Control Systems ECLIPSE Series offers revolutionary performance and features with the Patented D4A in a decorative luminaire system engineered to last.

Superior light performance, reduced glare, ultra long life components including 36 kV surge suppression standard, and more, create a system of unsurpassed value and performance. Plus, it's available with a broad range of controls and features including Adaptive Light Control.

ECLIPSE SERIES

## BEST IN CLASS PERFORMANCE

- Trouble free, Proven system
- Double or triple light coverage and life of most LED systems
- Uncompromising construction and materials
- Up to 160 Lumens Per Watt
- Reduced uplight glare by up to 60%
- 36 kV of surge suppression standard across all three lines
- Superior thermal design (no fans or thermal 'Band-aids')
- DLC Listing & UL Listed light source only \*
- Top quality industry proven Acrylic, and Polycarbonate Globes for performance and color stability

## OPTIONAL FEATURES

- Built in Controls - Bluetooth remote control using **VEGA Link IQ2 app**. Control light dimming, back light dimming, and front light dimming independently of each other.
- BUG Rating modification – independently modify Backlight, and Glare

## SOON TO BE RELEASED

- RGB - High output colored light array that can render many colors or simply use preset colors for special events.
- Built in Mesh Networking – VEGA Link Mesh Control (modify one unit settings and 'sync' all others), lock individuals where needed, report diagnostics, faults, GPS location, and more.

## RATED LIFE

## Specification Features

### CONSTRUCTION

- Heavy-duty cast aluminum housing. ANSI C136.31 testing compliance prevents damage from installation generated vibration. Powder coated for long term environmental and salt spray reliability.

### MOUNTING

- Post top mount fits 3" O.D. tenon. Secured by square head 3/8" stainless steel mounting bolts.

### OPTICS

- GLOBE: 8" or 9" Prismatic acrylic globe is standard. Available in asymmetric or symmetric distributions. We use the same globe suppliers as used by the major manufacturers.

### ELECTRICAL

- 120-277V 50/60Hz operation. 18kV/36kV common and differential mode surge protection standard. Thermal management transfers heat rapidly away from the LED source for optimal efficiency and light output. Ambient operating temperature from -40°C to 50°C.

### CONTROLS

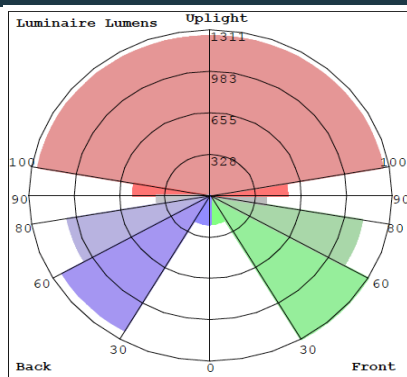

- 0-10V dimming driver optional. Photocontrol and After Hours Dim accessories available. Refer to control options section.

### WARRANTY

- Seven year warranty standard and optional ten year warranty on light source only.
